REMOTE CONTROLLED KEYSTONE CRAWLER COMPRESSOR

*Remotely move your Compressors over the most **rugged** terrain (**Radio Controls**).*

1) Retrofit Compressors

- Capable of mounting Compressors of all models and sizes.
- Add Hydraulic Pump to Engine PTO
- Minimal additional wiring
- Ability to tow traditional wheeled WCAT (reduced gradeability)

2) Power Hydraulics from Compressor Engine PTO

- No additional engine, fuel, maintenance, etc.

3) Crawler Compressor can go wherever your Drill Rig can go

- 30° Gradeability
- Top speed of 3mph
- Triple Grouser Track Shoes
- Industry proven Undercarriage
- Heavy duty Car Body frame

4) Safer Hands-Off Operation

- Safely control the Crawler Compressor from a distance with maximum visibility during operation.

5) Radio Controlled Technology

- Control Undercarriage with 2 Joysticks
- Radio Frequency Management

6) E-Stop

- Emergency Shutdown on Controller and Compressor

7) Safety

- Operator can control equipment from a safe distance
- Strobe light when in motion
- Remote Activated Horn
- Driving lights for night operation
